Hi Jessica,
It was lovely to meet you last night at the event and my apologies for not getting back to you sooner.

Please, let me say at the outset, I am personally very passionate about our natural environment. I am an amateur bee keeper and know only too well how fragile our natural systems are. We have a responsibility to preserve and repair where necessary our natural systems that have been in decline for decades.

My Campaign has been run on three core pillars; Health, Education and the Environment. On all fronts, the people of Myall Lakes have been let down by the Liberal/Nationals.

That said, it would be disingenuous of me, and truthfully dishonest, if I made solid promises and commitments about our environment right now. I'm not an elected Labor representative and we don't (yet), have a Minns Labor Government in Macquarie Street. If a Minns Government is elected on the 25 March, he and his team have a lot of work to do to clean up the mess left by 12 long years of a Liberal/National government.

If I'm fortunate enough to be elected to represent the people of Myall Lakes, I'll be working tirelessly on several fronts including the natural environment for which we rely so heavily.

The best way to answer your questions is to point you to our NSW Labor Policies.

NSW Labor
nswlabor.org.au

Jessica, my commitment if elected is to consult widely on areas the people of Myall Lakes care most about. After all, that's my job, to represent the people. My commitment is to ensure their views are reflected in our policies and then ensure those policies are funded and implemented on a priority, needs based approach.

I look forward to engaging with you and your members after the election to get a better understanding of local Landcare objectives, projects and priorities.

The link below is to my FaceBook Profile. Please feel free to share with your members should they want to know more about me personally.
